Forensic Science International, 44 (1990) 287–290
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX
Volume 44 (1990)

Accidental paraquat poisoning, disposal of pesticide containers, 23
Altered documents, questioned documents, ESDA, pencil writing, 7
Ammonium sulfate, thinner, toluene, ethyl acetate, isobutanol, gas chromatography, salting-out technique, sodium chloride, potassium carbonate, 55
Analysis, blood, driving, impairment, recidivism, toluene, 77
Analysis, blood, drugs, screening, 179
Analysis, ethanol, autopsy, drinking driver, 43
Angiography, neuroradiography, subarachnoid haemorrhage, vertebral artery, autopsy, 107
Asphyxia, histology, temporal bone, mastoid air cell, inner ear, 135
Asphyxia, pathology and biology, thyroglobulin, enzyme-linked immunosorbent assay (ELISA), 193
Atrial natriuretic peptide, rabbit, drowning diagnosis, 69
Autopsy, analysis, ethanol, drinking driver, 43
Autopsy, angiography, neuroradiography, subarachnoid haemorrhage, vertebral artery, 107

.303 Ball MK 7 bullet, high speed photography, country-made firearms, 237
Barbiturates, post-mortem kinetics, 117
Blood, analysis, driving, impairment, recidivism, toluene, 77
Blood, analysis, drugs, screening, 179
1-Butanol, diquat, mercaptoethanol, paraquat, serum, tissue, urine, 27

Carbon monoxide, formalin fixed tissues, phenobarbital, phenytoin, diazepam, desipramine, cyanide, 159
Chinese population, diaphorase, genetic polymorphism (DIA_3), semen, isoelectric focusing, 203
Chlorpromazine, phenothiazines, mass spectrometry, Sep-Pak C_{18} cartridges, wide-bore capillary GC, 93
Cocaine, diastereoisomers, HPLC, 37
Controlled study, juvenile offenders, Nigerian, 187
Country-made firearms, high speed photography, 303 ball MK 7 bullet, 237
Cracked occlusal area, Momba/Mongoloid population, dentition, molar size, cusp number, 49
Cusp number, Momba/Mongoloid population, dentition, molar size, cracked occlusal area, 49
Cyanide, formalin fixed tissues, phenobarbital, phenytoin, diazepam, desipramine, carbon monoxide, 159

Dentition, Momba/Mongoloid population, molar size, cusp number, cracked occlusal area, 49
Desipramine, formalin fixed tissues, phenobarbital, phenytoin, diazepam, carbon monoxide, cyanide, 159
Diaphorase, genetic polymorphism (DIA_3), semen, isoelectric focusing, Chinese population, 203
Diastereoisomers, cocaine, HPLC, 37
Diazepam, formalin fixed tissues, phenobarbital, phenytoin, desipramine, carbon monoxide, cyanide, 159
3,4-Dihydroxyphenylacetic acid, postmortem interval, human cerebrospinal fluid, monoamine metabolite, 61
Diquat, mercaptoethanol, 1-butanol, paraquat, serum, tissue, urine, 27
Disposal of pesticide containers, accidental paraquat poisoning, 23
DNA fingerprint, minisatellite, VNTR sequence, hypervariable loci, paternity testing, 209
Drinking driver, analysis, ethanol, autopsy, 43

Driving, analysis, blood, impairment, recidivism, toluene, 77
Drowning diagnosis, atrial natriuretic peptide, rabbit, 69
Drugs, analysis, blood, screening, 179
Duffy system, phosphoglucomutase, null allele, Polish population, 143

Enzyme-linked immunosorbent assay, methamphetamine, new anti-methamphetamine antibody, enzyme immunoassay, latex agglutination inhibition reaction test, 245
Enzyme-linked immunosorbent assay (ELISA), pathology and biology, asphyxia, thyroglobulin, 193
Enzyme immunoassay, methamphetamine, new anti-methamphetamine antibody, enzyme-linked immunosorbent assay, latex agglutination inhibition reaction test, 245
ESDA, questioned documents, altered documents, pencil writing, 7
Ethanol, analysis, autopsy, drinking driver, 43
Ethyl acetate, thinner, toluene, isobutanol, gas chromatography, salting-out technique, sodium chloride, potassium carbonate, ammonium sulfate, 55

Fentanyl, RIA, urine extraction, 1
Formalin fixed tissues, phenobarbital, phenytoin, diazepam, desipramine, carbon monoxide, cyanide, 159

Gas chromatography, thinner, toluene, ethyl acetate, isobutanol, salting-out technique, sodium chloride, potassium carbonate, ammonium sulfate, 55
Gas chromatography, toxicology, solvent abuse, toluene, symptoms, 169
Genetic polymorphism (DIA_3), diaphorase, semen, isoelectric focusing, Chinese population, 203
Glucose, isotachophoresis, vitreous humour, lactate, 273

High speed photography, country-made firearms, .303 ball MK 7 bullet, 237
Histology, asphyxia, temporal bone, mastoid air cell, inner ear, 135
HPLC, cocaine, diastereoisomers, 37
Human cerebrospinal fluid, postmortem interval, monoamine metabolite, 3,4-dihydroxyphenylacetic acid, 61
Hypervariable loci, DNA fingerprint, minisatellite, VNTR sequence, paternity testing, 209

Impairment, analysis, blood, driving, recidivism, toluene, 77
Inner ear, histology, asphyxia, temporal bone, mastoid air cell, 135
Isobutanol, thinner, toluene, ethyl acetate, gas chromatography, salting-out technique, sodium chloride, potassium carbonate, ammonium sulfate, 55
Isoelectric focusing, diaphorase, genetic polymorphism (DIA_3), semen, Chinese population, 203
Isotachophoresis, vitreous humour, lactate, glucose, 273

Japan, polygraph use, policy, validity, reliability, legal admissibility, 257
Juvenile offenders, Nigerian, controlled study, 187

Lactate, isotachophoresis, vitreous humour, glucose, 273
Latex agglutination inhibition reaction test, methamphetamine, new anti-methamphetamine antibody, enzyme immunoassay, enzyme-linked immunosorbent assay, 245
Legal admissibility, Japan, polygraph use, policy, validity, reliability, 257

Mass spectrometry, phenothiazines, chlorpromazine, Sep-Pak C_{18} cartridges, wide-bore capillary GC, 93
Mastoid air cell, histology, asphyxia, temporal bone, inner ear, 135
Mercaptoethanol, diquat, 1-butanol, paraquat, serum, tissue, urine, 27
Methamphetamine, new anti-methamphetamine antibody, enzyme immunoassay, enzyme-linked immunosorbent assay, latex agglutination inhibition reaction test, 245
Minisatellite, DNA fingerprint, VNTR sequence, hypervariable loci, paternity testing, 209
Molar size, Momba/Mongoloid population, dentition, cusp number, cracked occlusal area, 49

Momba/Mongoloid population, dentition, molar size, cusp number, cracked occlusal area, 49
Monoamine metabolite, postmortem interval, human cerebrospinal fluid, 3,4-dihydroxyphenylacetic acid, 61

Neuroradiography, angiography, subarachnoid haemorrhage, vertebral artery, autopsy, 107
New anti-methamphetamine antibody, methamphetamine, enzyme immunoassay, enzyme-linked immunosorbent assay, latex agglutination inhibition reaction test, 245
Nigerian, juvenile offenders, controlled study, 187
^{1}H-NMR, skeletal muscle, thanatochronology, 225
Null allele, phosphoglucomutase, Duffy system, Polish population, 143

Paraquat, diquat, mercaptoethanol, 1-butanol, serum, tissue, urine, 27
Paternity testing, DNA fingerprint, minisatellite, VNTR sequence, hypervariable loci, 209
Pathology and biology, asphyxia, thyroglobulin, enzyme-linked immunosorbent assay (ELISA), 193
Pencil writing, questioned documents, ESDA, altered documents, 7
Phenobarbital, formalin fixed tissues, phenytoin, diazepam, desipramine, carbon monoxide, cyanide, 159
Phenothiazines, chlorpromazine, mass spectrometry, Sep-Pak C_{18} cartridges, wide-bore capillary GC, 93
Phenytoin, formalin fixed tissues, phenobarbital, diazepam, desipramine, carbon monoxide, cyanide, 159
Phosphoglucomutase, Duffy system, null allele, Polish population, 143
Policy, Japan, polygraph use, validity, reliability, legal admissibility, 257
Polish population, phosphoglucomutase, Duffy system, null allele, 143
Polygraph use, Japan, policy, validity, reliability, legal admissibility, 257
Post-mortem kinetics, barbiturates, 117
Postmortem interval, human cerebrospinal fluid, monoamine metabolite, 3,4-dihydroxyphenylacetic acid, 61
Postmortem interval, rat plasma, sodium, potassium, sodium/potassium ratio, 125
Potassium, postmortem interval, rat plasma, sodium, sodium/potassium ratio, 125
Potassium carbonate, thinner, toluene, ethyl acetate, isobutanol, gas chromatography, salting-out technique, sodium chloride, ammonium sulfate, 55

Questioned documents, ESDA, altered documents, pencil writing, 7

Rabbit, atrial natriuretic peptide, drowning diagnosis, 69
Rat plasma, postmortem interval, sodium, potassium, sodium/potassium ratio, 125
Recidivism, analysis, blood, driving, impairment, toluene, 77
Reliability, Japan, polygraph use, policy, validity, legal admissibility, 257
Respiration and circulation, toxicology, toluene inhalation, sudden death, 151
RIA, fentanyl, urine extraction, 1

Salting-out technique, thinner, toluene, ethyl acetate, isobutanol, gas chromatography, sodium chloride, potassium carbonate, ammonium sulfate, 55
Screening, analysis, blood, drugs, 179
Semen, diaphorase, genetic polymorphism (DIA_3), isoelectric focusing, Chinese population, 203
Sep-Pak C_{18} cartridges, phenothiazines, chlorpromazine, mass spectrometry, wide-bore capillary GC, 93
Serum, diquat, mercaptoethanol, 1-butanol, paraquat, tissue, urine, 27
Skeletal muscle, ^{1}H-NMR, thanatochronology, 225
Sodium, postmortem interval, rat plasma, potassium, sodium/potassium ratio, 125
Sodium/potassium ratio, postmortem interval, rat plasma, sodium, potassium, 125
Sodium chloride, thinner, toluene, ethyl acetate, isobutanol, gas chromatography, salting-out technique, potassium carbonate, ammonium sulfate, 55
Solvent abuse, toxicology, toluene, symptoms, gas chromatography, 169
Subarachnoid haemorrhage, angiography, neuroradiography, vertebral artery, autopsy, 107

Sudden death, toxicology, toluene inhalation, respiration and circulation, 151
Symptoms, toxicology, solvent abuse, toluene, gas chromatography, 169

Temporal bone, histology, asphyxia, mastoid air cell, inner ear, 135
Thanatochronology, 1H-NMR, skeletal muscle, 225
Thinner, toluene, ethyl acetate, isobutanol, gas chromatography, salting-out technique, sodium chloride, potassium carbonate, ammonium sulfate, 55
Thyroglobulin, pathology and biology, asphyxia, enzyme-linked immunosorbent assay (ELISA), 193
Tissue, diquat, mercaptoethanol, 1-butanol, paraquat, serum, urine, 27
Toluene, analysis, blood, driving, impairment, recidivism, 77
Toluene, thinner, ethyl acetate, isobutanol, gas chromatography, salting-out technique, sodium chloride, potassium carbonate, ammonium sulfate, 55
Toluene, toxicology, solvent abuse, symptoms, gas chromatography, 169
Toluene inhalation, toxicology, sudden death, respiration and circulation, 151
Toxicology, solvent abuse, toluene, symptoms, gas chromatography, 169
Toxicology, toluene inhalation, sudden death, respiration and circulation, 151

Urine, diquat, mercaptoethanol, 1-butanol, paraquat, serum, tissue, 27
Urine extraction, fentanyl, RIA, 1

Validity, Japan, polygraph use, policy, reliability, legal admissibility, 257
Vertebral artery, angiography, neuroradiography, subarachnoid haemorrhage, autopsy, 107
Vitreous humour, isotachophoresis, lactate, glucose, 273
VNTR sequence, DNA fingerprint, minisatellite, hypervariable loci, paternity testing, 209

Wide-bore capillary GC, phenothiazines, chlorpromazine, mass spectrometry, Sep-Pak C_{18} cartridges, 93
